You are not permitted to re-nominate a time unless you have had approval to do so by your Group Leader & Clerk of the Course**
- (b) The event proper is scheduled to start at 1240hrs on Saturday (Race) and 0930 hrs on Sunday.

12) STARTING POSITIONS

The starting order / grid positions, for your events will notified on the neck tag that you will receive after the drivers briefing, or as otherwise directed by Grid Marshals.

- (a) **Race Events:** at the discretion of Clerk of Course, race events may have a Standing, Rolling or Handicap start

(b) **Rolling Start Procedure (for all Regularity):**

Competitors will assembled in the dummy grid area in the order as shown on your neck tag. Upon direction, the cars will enter circuit for a warm-up lap behind the Safety car during which overtaking is prohibited. In Qualifying, Practice and each event, a Safety Car will lead the field out from the dummy grid

You must at all times keep the field bunched up. At a pre determined position on the track the Safety Car will confer with Race Control and if the field is **not** tight enough you will do another lap until such time as the field is set to compete. (This will result in a timed lap of your event being docked).

The safety car will quicken it's pace to exit the circuit at the Pit Entry; **THIS IS NOT THE SIGNAL TO START THE EVENT**. The pole position driver is to keep the field moving slowly, and you will approach the start finish line (even going around the corner) in formation. **Your event does not start until you cross the Start/Finish line**. The events are rolling starts, **NOT** flying starts. You must at all times keep the field closed up, and there must be no passing until you have crossed the start line.

Any competitor deemed to be in breach of this procedure may be charged by the Clerk of the Course and an appropriate penalty applied by the Stewards.

c) **Determination:**

Regularity Entrants are asked to nominate a lap-time on the Entry Form. This time will be used with times from historical data to allocate a lap-time which will be printed on your tag. These allocated times will be based on dry conditions, and should the track be classed as wet an appropriate extra time, as advised by the Clerk of Course, will be added to all allocated times.

New drivers with no available time will be allocated a time placing them at, or near, the rear of the field. They **must** abide by this time and are not to pass any car unless absolutely necessary and safe to do so. We need to observe new drivers and they need to understand how the event is run.

The allocated time will be used in practice. After practice you are to look at your time and if you wish to change it you must confer with your Group Leader who will in turn confer with the Clerk of the Course and Stewards to seek approval. **Drivers are reminded that this is a Regularity Trial and not a race.** Drivers not contesting the events in the appropriate manner may be black-flagged and may face further charges, as determined by the Stewards of the Meeting.

13) REFUELING

There will be a designated and manned refuelling area were all fuel containers are to be kept. There will be no refuelling allowed unless you're in this refuelling area, the ignition is switched off, there is an assistant standing by with a fire extinguisher and the competitor is outside the vehicle. Fuel must be in accordance with Schedule G of the current CAMS Manual.
