13) EVENT RUNNING PROCEDURES

a) Start Procedures

Drivers will be marshalled in the dummy grid (entering pit lane from the southern ramp) in the order of allocated lap times, fastest to slowest in your group. Upon direction, the cars will enter circuit for a warm-up lap behind the Course car during which overtaking is prohibited. The grid formation must be held until you reach the Start/Finish line. The Course car will slow down turn lights off, and turn into the pit lane. The field of cars behind will continue to the Start/Finish line for a ROLLING start.

Timing will commence for each car as it crosses the start/finish line at the beginning of the trial period and will continue until the prescribed time, or number of laps for the last car is completed. Each event will be a prescribed time, or a minimum of 6 timed laps based on the last car. The activity shall continue until the end of the event is signalled by the waving of the chequered flag.

Drivers are to then reduce speed and return to the pits as they come to the South ramp.

b) Lap Time Determination:

Competitors are requested to nominate a lap-time on the Entry Form to determine your practice grid position. The practice session lap times will be used to determine your allocated lap time. New drivers with no available time will be allocated a time placing them at, or near, the rear of the field. New drivers **must** abide by this time and are not to pass any car unless absolutely necessary and safe to do so.

For any subsequent change your allocated time you must confer with your Group Leader who will seek approval from the Clerk of the Course and Stewards.
