

## Impromptu Runs for Code 404 Vehicles

Impromptu Runs enable owners of cars with a Code 404 Concessional Licence to use their car occasionally and a Run can consist of 1 or more vehicles.

The Run period is for 1 day only, meaning that the Run must commence and end on the same day.

The DoT considers that logging Impromptu Runs on consecutive days for the purpose of engaging in a motoring activity that is in effect a multi-day event is inconsistent with the intent of the Code 404 scheme and is not acceptable practice. For example, a drive or ride to an overnight destination and to return the following day is not acceptable practice.

Impromptu Runs must be recorded by the Club's Concessional Licensing Registrar by sending an email **before** the run to:

- the VSCC Administration Officer at [entries@vscwa.com.au](mailto:entries@vscwa.com.au)

The email must include:

- date of the proposed Run
- approximate start and finish times of the Impromptu Run
- starting address
- intended destination
- finishing address
- member's name
- vehicle make/model
- vehicle registration and
- driver's name (if not the member).
